

Lay 4 pieces of paper down so that the bottom edges are equally spaced apart.

Carefully fold over the top flaps to meet the bottom flaps so that *all* flaps are equally spaced.

Make about a quarter-inch fold at the top to help pre-crease your papers.

Put 3 staples just above the quarter-inch fold.

Label each flap according to the checklist and begin completing your exam review project. Do quality work and prepare well for your exam!
